

Himanshu Yadav

Frontend Developer

✉ himanshuyadavwebdev@gmail.com ☎ 7678662985 🔗 Portfolio Site 🐙 Github 🔗 LinkedIn

SUMMARY

Frontend Developer skilled in React.js, Next.js, TypeScript, Tailwind CSS, and JavaScript. Built projects including a multilingual AI resume analyzer, a real-time Figma-inspired design tool, and a site health dashboard, with experience in REST APIs, Firebase, and Vercel.

EXPERIENCE

Frontend Developer, NogaTech IT Solutions 🔗 12/2024 – Present
Remote, Honolulu Hawaii, US

- Developed responsive and mobile-first web applications using React.js, Next.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Transformed client design specifications into scalable, production-ready user interfaces with a focus on performance and accessibility.
- Collaborated with a distributed US-based team across multiple time zones using Git/GitHub, participating in code reviews and agile development workflows.
- Delivered client-facing projects from development through deployment while maintaining high standards of responsiveness, usability, and cross-browser compatibility.
- Identified and resolved frontend issues, improving application stability, performance, and overall user experience.

EDUCATION

B.Tech in Computer Science and Engineering, 07/2022 – 07/2026
IILM University, Greater Noida

Class 12th, 06/2021 – 03/2022
Government higher secondary school, Hathkuri Panna

Class 10th, 06/2019 – 03/2020
Government higher secondary school, Hathkuri Panna

SKILLS

Technical Skills HTML, CSS, JavaScript, TypeScript, Next.js, Figma, Tailwind CSS, React, GitHub	Soft Skills Time Management, Communication, Adaptability, Team Collaboration
---	--

PROJECTS

Resume Analyzer

- Built an AI-powered multilingual resume analyzer using React.js, Node.js, and Groq AI (Llama 3.1) with Firebase Authentication and a custom PDF parser. Supports 7 languages and provides Resume Score, ATS Score, strengths, and improvement suggestions.

SiteHealth Dashboard

- Developed a website health analyzer using React.js and the Claude API that scans any URL and reports on performance, security, page weight, and technical issues with improvement suggestions.

Figma Clone

- Built a collaborative real-time canvas editor inspired by Figma using Next.js, TypeScript, and Fabric.js. Supports real-time multi-user collaboration powered by Liveblocks with features including shape creation, drag-and-drop, and layered canvas elements.

Portfolio Site 🔗

- Developed a modern developer portfolio using Next.js, TypeScript, Tailwind CSS, and Framer Motion, featuring advanced animations, interactive UI components, and responsive design.
